

# **Navigating Murky Waters**

Discussing Ongoing Challenges with  
Leachate Disposal in Florida

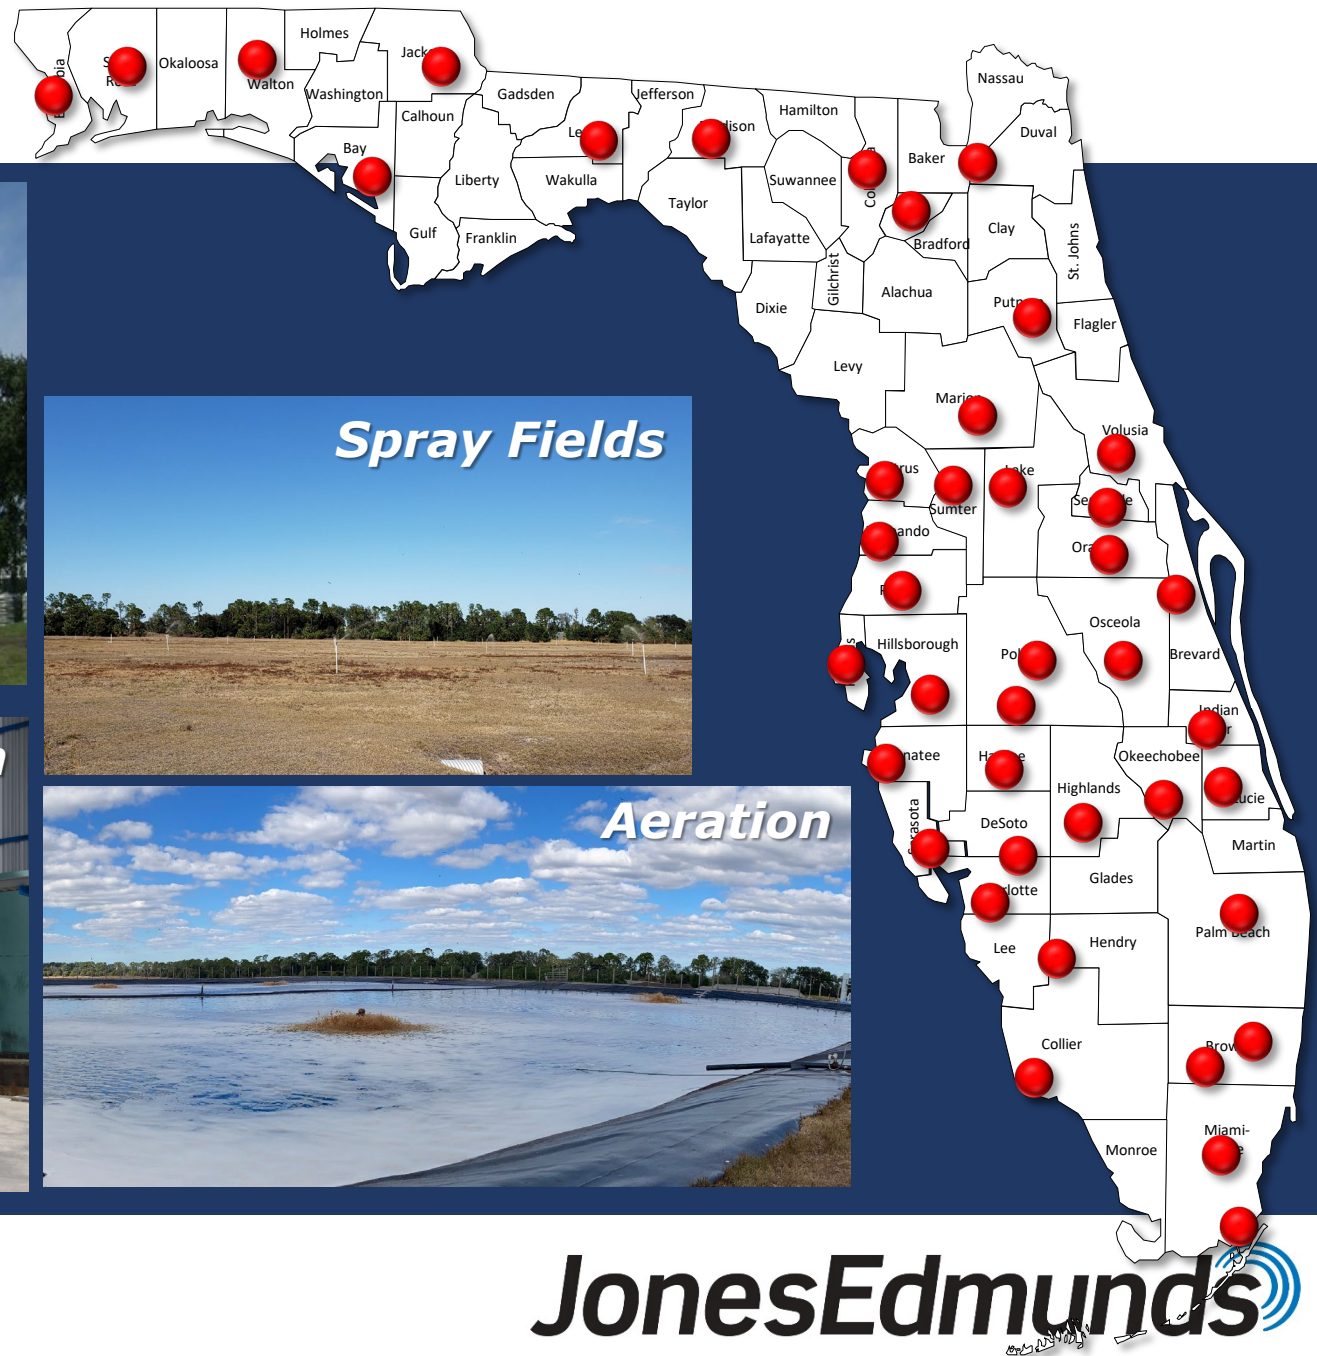

**Moderator:**

Chad Spreadbury, PhD, EI

# Landfill Leachate 101

# Florida Landfills

*Air Stripping*

*Deep Well Injection*

*Spray Fields*

*RO System*

*Aeration*

# What are some ongoing challenges with leachate management?

1. Increasing difficulty with WWTPs accepting leachate
2. Hauling costs
3. Construction/operation of new treatment/disposal systems on-site
4. Emerging constituents  
(e.g., personal care products, PFAS)

How do we navigate these “murky” waters?
